

Weekly Event Calendar - Wordpress Plug-in

(1) Installation is very simple like the normal plug-in installation . what you have to do is upload the code to plug-in folder and activate it

(2) Once you activate the plug-in, you can see the Event menu is appearing in the left bar.

Now you can manage your event list and add new events also

By clicking the **Add New Event** , you can add new Events

(3) To add event calender to your page , you can use the shortcode **[calender] [/calender]**

(4) This is how you can see your calendar in your page
