SITEMAP GENERATOR FOR SEO (XML & HTML)

Version: 1.0.0

The **Sitemap Generator for SEO (XML & HTML)** module, developed by PrestaShop, allows you to optimize the SEO of your site on all search engines by automatically generating your store's sitemaps.

Contents :

1. *XML Sitemap tab*
2. *HTML Sitemap tab*
3. *Automatic tasks tab*
4. *Help tab*

1. XML SITEMAP TAB

In this tab, you will be able to customize your sitemaps in XML and then export them in a few clicks.

- [Step 1 : General configuration](#)

- Begin by choosing the language(s) in which you want to generate your sitemaps.

Choose the language(s) in which your sitemap will be generated

- ☒ English (English)
- ☒ Français (French)
- ☐ Català (Catalan)
- ☐ Español (Spanish)
- ☐ Galego (Galician)
- ☐ Euskera (Basque)
- ☐ Deutsch (German)
- ☐ Italiano (Italian)

- Would you like to include your store's image links in the sitemap?

Include links for images in sitemap

YES

NO

- [Step 2 : Sitemap for categories](#)

- Would you like to generate a sitemap for your category pages?

Generate sitemap for categories

YES

NO

- You can also dissociate your homepage from other category pages if necessary. This will allow you to set a different priority and/or content modification frequency for this page (to highlight it for example).

Dissociate homepage from other category pages

YES

NO

Clicking Yes, you will be able to set a different priority and modification frequency for your homepage

Priority for homepage

0.9

Modification frequency for homepage

Always
Always
Hourly
Daily
Weekly
Monthly
Yearly
Never

- You can then set the priority and modification frequency for other category pages (excluding the homepage).

Priority

Modification frequency

- You will also find in this step a table listing all the categories of your store. You will have the possibility, in this table, to choose the category pages you would like to export in your sitemap. The Select All button, as well as a search field, are made available to facilitate your work.

Show

Filter records

Category ID	Category Name	<input checked="" type="checkbox"/> Export
1	Root	<input checked="" type="checkbox"/>
2	Home	<input checked="" type="checkbox"/>
3	Clothes	<input checked="" type="checkbox"/>
4	Men	<input checked="" type="checkbox"/>
5	Women	<input checked="" type="checkbox"/>
6	Accessories	<input checked="" type="checkbox"/>
7	Stationery	<input type="checkbox"/>
8	Home Accessories	<input type="checkbox"/>
9	Art	<input type="checkbox"/>

Showing 1 to 9 (of 9 entries)

Previous

Next

- [Step 3 : Sitemap for products](#)

This step will allow you to customize the sitemap for your product pages. The configuration remains similar to the configuration of category pages.

- [Step 4 : Sitemap for CMS pages](#)

This step will allow you to customize the sitemap for the CMS pages of your store (example: About us, Terms and conditions of use...). The configuration remains similar to the configuration of category pages.

- [Step 5 : Sitemap for other pages](#)

This step will allow you to customize the sitemap for other pages of your shop (example: Contact us, Login ...). The configuration remains similar to the configuration of category pages.

- [Step 6 : Sitemap export](#)

In this step you will find the link to your sitemap. To be able to visualize individual sitemaps (sitemap for categories, for products, etc.), we invite you to click on the index link displayed and open the corresponding links.

Please find below the link to your sitemap

- http://pathetic-plastic.machine-shuffle.prestashop.net/sitemapIndex_Shop_1.xml

In order to generate the index of your store's sitemap, please make sure that you've created at least one sitemap (for your categories, your products, etc).

To visualize your individual sitemaps, please click on the index and open the corresponding links.

In case you don't know how to submit your sitemap to google, please [Click here](#)

2. HTML SITEMAP TAB

After configuring the sitemap in XML, in this second tab, you will be able to customize the display of this sitemap on your store.

- Would you like to display the sitemap on your website?

Display HTML sitemap on your site

YES

NO

- Then, please choose from the drop-down list the CMS page on which you want to display your sitemap. If you have not created your Sitemap page, a link is available for you to create a new CMS page.

Choose a page for your sitemap None Selected ▼

*Please make sure that you have created your sitemap page
To create a new page on your website and customize its content, please [Click here](#)*

- You will also be able to choose the display type for your sitemap. 3 options are available for the best display of the sitemap on your store.

Sitemap display type

- Finally, you can choose the text font and colors for the different texts displayed on your sitemap: the title of the page ("Sitemap"), the title of the categories ("Categories", "Products", "CMS Pages", "Other pages ") and the page links.

Font text Roboto ▼

Page title color #ffcb9b 

Page category color #7fff80 

Page link color #2189ff 

3. AUTOMATIC TASKS TAB

To make your work easier, we recommend you to set up a cron job to automatically check your sitemap's modifications. In this tab, 2 options to configure your cron job will be made available to you, as well as some tips to submit your sitemap to the Google search engine.

4. HELP TAB

In this tab, you will find the user guide in PDF of this module to help you with different configuration elements and a list of questions frequently asked by our merchants as well as answers provided by our module experts.

The entire PrestaShop Team thanks you for your trust and wishes you great success with the Sitemap Generator for SEO (XML & HTML) module!
