Products Comments Pro
_-- *** --_
_Module version: 1.0.0_

Short Description:
Allow all customers or Guests send messages to every products.

1. Install:

In **Back-Office** > **Modules and Services**, click on **Add a new Module** button. Choose the zip file that you have downloaded from Prestashop Addons (After bought) and **Upload this file**.
In modules list, click on Install:

2. Create a new group

At the first, we have to create a new group of Customers which have permissions in managing of comments at front-end.
Open **Products Comments Pro Module Configures**, click on **Create a new group** at below of "Moderators Group":

At the new page, fill up and click on save button to create a new Group. The name like "**Moderators**"

Back to Products Comments Module Configures, In Moderators Group, choose the group that created above.
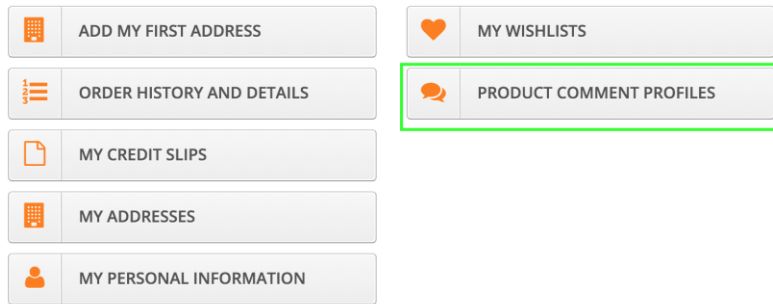

3. Edit my Nickname and Avatar.

In Front-Office, click on **Sign in**.
Your dashboard look like this:

MY ACCOUNT

Welcome to your account. Here you can manage all of your personal information and orders.

🏢 ADD MY FIRST ADDRESS		❤ MY WISHLISTS	
📋 ORDER HISTORY AND DETAILS		💬 PRODUCT COMMENT PROFILES	
📄 MY CREDIT SLIPS			
🏢 MY ADDRESSES			
👤 MY PERSONAL INFORMATION			

Now you can see, we have a new button named "*Product Comment Profiles*".
Click on this button, a popup is opened. We can modify nickname, avatar and notifications status.
Nickname and avatar will be displayed when you send a comment in product page.
